

UNIVERSITY OF  
CALGARY

# PARTICIPATE IN A GESTATIONAL DIABETES STUDY

Help advance diabetes research with continuous  
glucose monitoring

## What is this study about?

The University of Calgary wants to see if continuous glucose monitoring after delivery in people with gestational diabetes can predict the future development of type 2 diabetes.

## Who can participate?

- Pregnant people aged 18 or older
- Diagnosed with gestational diabetes by their care provider
- Planning an in-hospital delivery

**Want to learn more? Contact the Research Coordinator  
Jane Booth at:**

**Tel: (403) 955-8116**
